

Power Template Help:

The file you see is the configuration and usage guide for the Power template module. This document aims to explain the steps in a simple and clear manner, with pictures.

Please follow along with us:

After installing the template module Power, go to the "Modules" folder and then enter "SmartPlugins.Themes.Power" folder.

Then run the "create-deployed-symlinks" file.

Note: For versions 6.2 and above, this step is performed automatically during installation, and there is no need to follow the steps above.

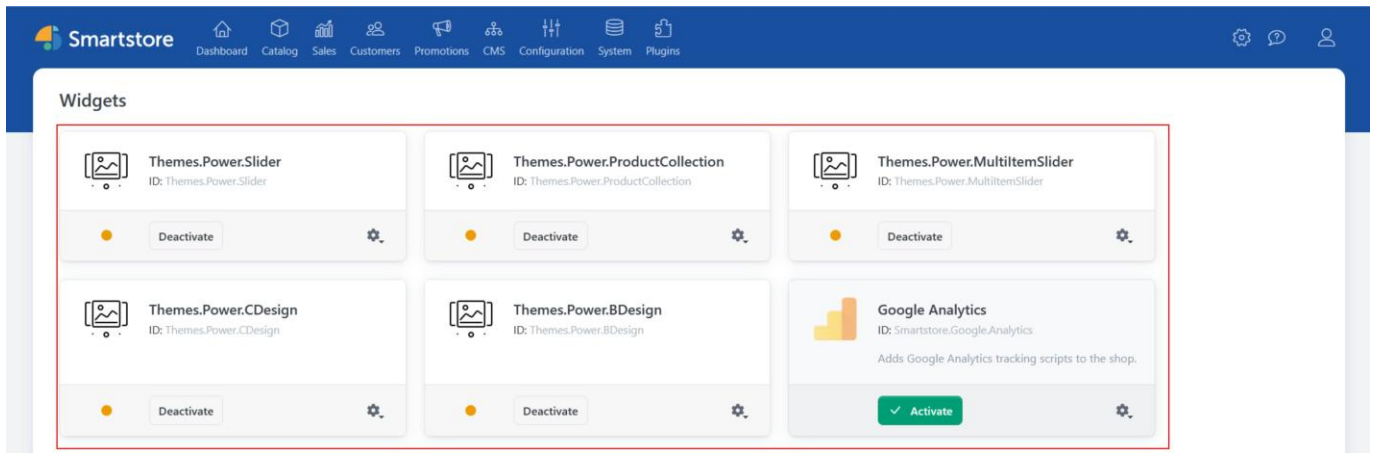

Then go to the admin panel and proceed as shown in the image:

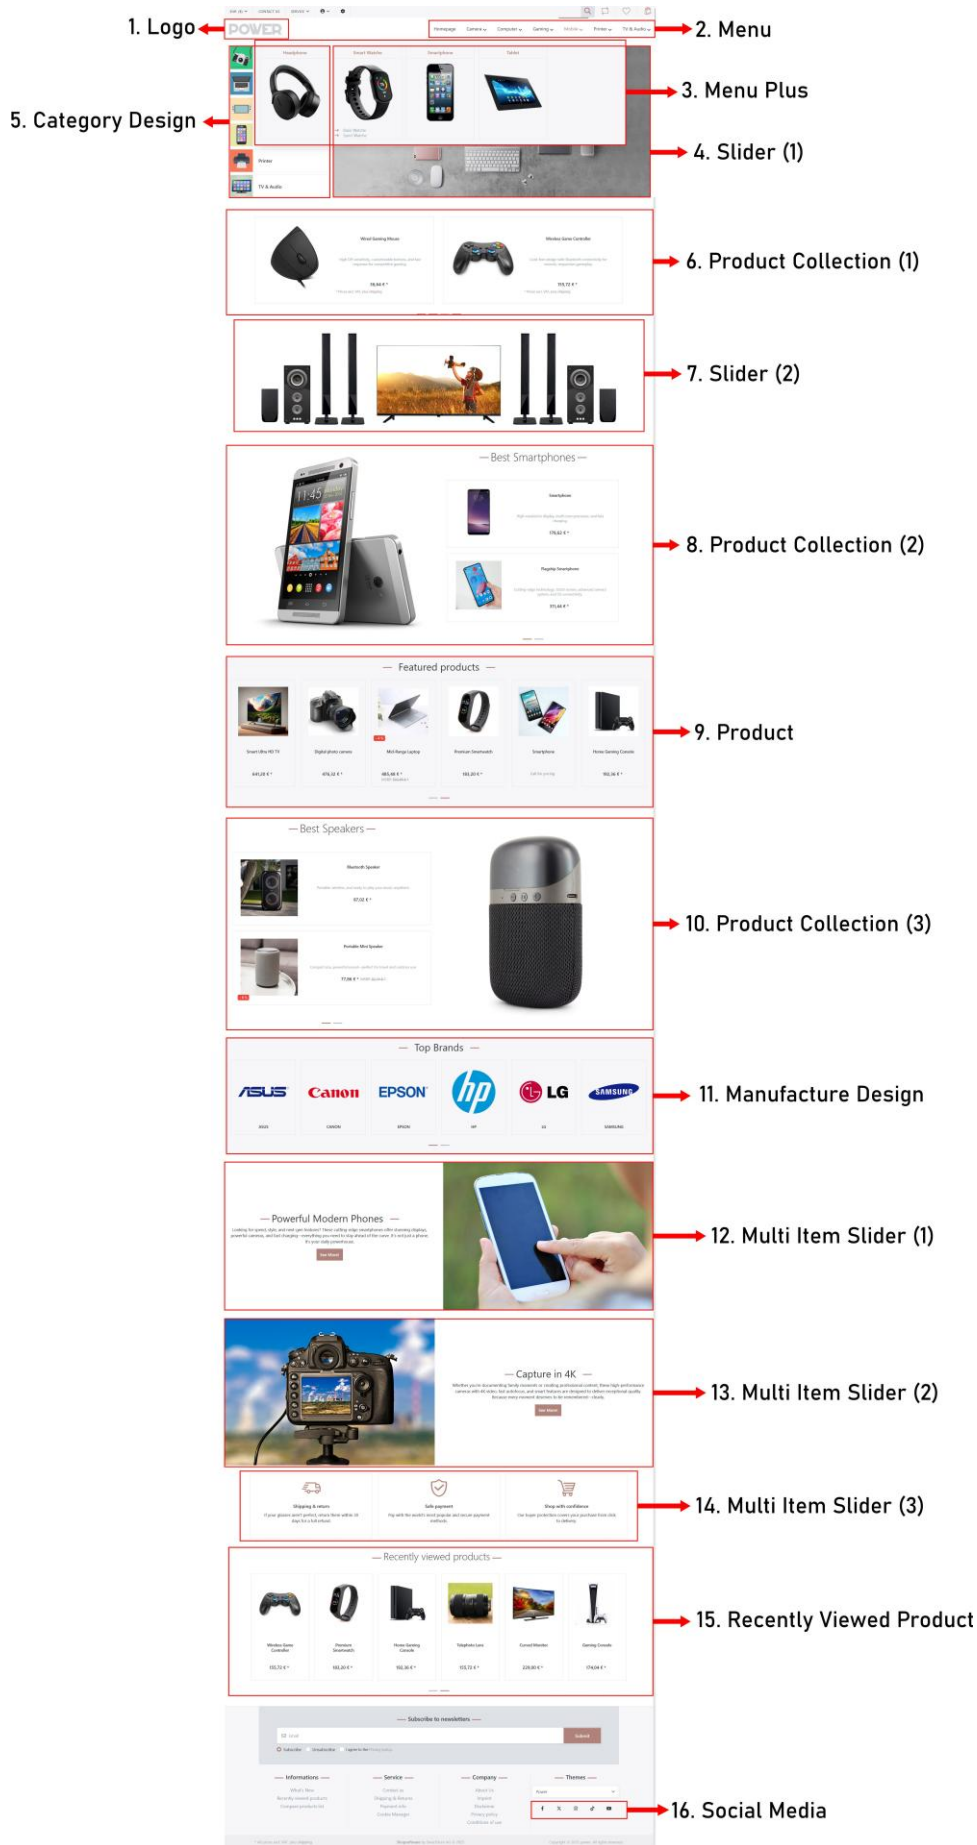

Now, follow the images below for active widgets and using the modules:

Now that the template is installed and all the modules are ready, you need to add your information to the template. In the image below, all the sections of the template we have prepared are highlighted separately.

For an explanation of each section, refer to the corresponding section:

1. logo:

In this section, you can upload your desired logo. The logo dimensions can be approximately as follows: a width of around 300 pixels and a height of around 80 pixels.

Follow these steps the Admin Panel to add your personal logo:

The image shows two screenshots of the Smartstore Admin Panel. The top screenshot displays the 'Configuration' menu with 'Stores' highlighted, indicated by a red arrow and the number '1'. The bottom screenshot shows the 'Stores' table with a red box around the 'power' store name and a red arrow pointing to it, labeled with the number '2'.
